NICE ▪ SiraView

View Multiple CCTV Video File Formats with a Single, Intuitive Interface

Making different types of video playable

NICE SiraView is the ultimate CCTV viewer, enabling users to view multiple CCTV video file formats with a single, intuitive interface. Dispensing with the need for manufacturers' proprietary viewers, SiraView is a unique decoding application, preserving the evidential quality of the CCTV footage.

View Hundreds of CCTV Formats with no Loss of Quality

Fast Retrieval with Automatic Optimization

Lab Processing Times Removed

■ **Universal CCTV viewer** - NICE SiraView facilitates the playback of multiple CCTV formats within a single intuitive user interface. Our software preserves the original evidential quality of your footage, while offering simple, high-volume, cost-effective navigation between multiple sources.

■ **Automatically recognize the file extension of any supported CCTV footage** - with NICE SiraView you don't have to search for the right player every time. Whether you're dealing with a major incident with hundreds of CCTV sources or a single piece of footage, NICE SiraView's consistent interface makes it quick and easy to load, access, review and synchronize your evidence.

■ **View CCTV footage on a PC without the need for lab processing** - no more uproductive waiting for crucial evidence that could make or break an investigation. By superseding the CCTV manufacturers' proprietary viewers, NICE SiraView also frees up drive space, enabling faster running.

NICE®

Hassle-Free Export and Sharing

■ **Easy to export video and single frames as still images** - in BMP or JPEG format or send them directly to a printer. Exported or printed images can also display camera, time and decoder information. Video sequences can be burned directly to DVD, or converted and saved to formats including QuickTime, MPEG and H.264. Multiple camera streams can be exported simultaneously into other software packages such as for facial recognition or motion detection.

Easy Storyboard and Bookmarking

■ **Bookmark and storyboard features** - enable efficient labeling and referencing of clips. Using our split-screen viewer, you can navigate through your footage and mark up pertinent events as you go, by adding clips onto your storyboard. Each clip retains its original metadata, ensuring easy and reliable referencing to your source material to guarantee evidential quality. Storyboard clips and data can be organized by date, subject etc., according to your needs, and can be readily recalled.

Intuitive Navigation

■ **Simple and instinctive navigation** - gives you precise control over your CCTV video. The dual-slider technology allows you to skip and reverse rapidly to an approximate point in your footage, before fine-tuning or stepping through sequences a frame at a time as you comb for detail. Simple keyboard shortcuts enable you to jump directly to a date or time, saving you the fuss of scrolling through volumes of material.

Seamless Integration with NICE Investigate

■ **Integration with NICE Investigate** - the market leading digital evidence management solution. Automate your entire digital investigation and evidence management process, and help your investigators close more cases faster.

Playable Formats and Accreditation

■ **Extensive list of CCTV playable formats** - available on request. NICE SiraView can be used as part of an ISO 17025 accredited laboratory.

About NICE Public Safety

NICE Public Safety solutions integrate and put into context information from many sources to help emergency control rooms and investigation departments reconstruct and understand the who, what, when, where and why of an incident. NICE Inform, the industry-leading digital evidence management (DEM) solution, gives emergency control rooms better insight into how to continuously improve their operations. NICE Investigate is the leading open, digital policing solution that automates and expedites the entire digital investigation process, helping to increase case clearance rates. Over 3,000 organisations worldwide rely on NICE public safety solutions.
